

For optimal viewing:

- right-click the 3D model, select 'Preferences', '3D & Multimedia' and 'Enable Double-Sided Rendering'.
- right-click the 3D model, select 'Tools' and 'Show 3D toolbar'. You can use the 3D toolbar to navigate, measure and control the render mode of the model. It's possible, for example, to see it in transparent or wireframe mode or with cross section.
