The Yorkshire
Archæological & Topographical Association.

RECORD SERIES.

The Subscription of One Guinea to this Branch of the Association for the current year became due on the 1st January, 1887, and may be remitted direct to the Honorary Secretary, Mr. S. J. Chadwick, F.S.A., Church Street, Dewsbury, by Cheque or Postal Order.

The Council have been able to issue Two Volumes of the Series, and are commencing Vol. III., which will be issued to Subscribers for the current year. Particulars are given on the third page of this circular.

The Council beg to call your attention to the enclosed proposal form, and will be glad to receive any nomination of new members. They earnestly ask for your kind assistance.

The number of subscribers to this series is nominally about 200—too small for so large a county. It should be raised to 250 at least, to enable the work to be prosecuted with vigour and credit.

The Council rely upon your good offices to make this branch better known, as it is only by a little effort on the part of the members that this desirable object can be attained.

By order of the Council,

S. J. CHADWICK,
Hon. Sec.

THE YORKSHIRE

Archæological & Topographical Association.

The New Record Series.

The First and Second Volumes of this Series are now ready.

VOLUME I. contains

(1) *A Catalogue of the Inquisitions Post Mortem for the County of York, for the Reigns of James I. and Charles I., in the Courts of Chancery and of Wards and Liveries.*

(2) *A Catalogue of the Yorkshire Wills at Somerset House, for the Years* 1652 *to* 1660, compiled by Dr. COLLINS, *with a copious Index.*

VOLUME II. is the First of Three Volumes of *Yorkshire Feet of Fines of the Tudor Period*, and has been compiled, *with a full Index of Names and Places*, by Dr. COLLINS.

The object of these Volumes of Fines is to place in the hands of those interested in the topography and genealogy of Yorkshire, a complete Index of the Names of all Places and Persons in the Feet of Fines for that County during the Tudor period, together with a short summary or abstract of each Fine. Their value therefore to those interested in family or local history will be very great.

VOLUME III., which will appear in 1887, will contain

(*a*) *The Proceedings in a Dispute between the Council of the North and certain Justices of the North and West Ridings.*

(*b*) *A Transcript of the two earliest known Sessions Rolls of the West Riding* (1596 *and* 1597), presented by EDWARD HAILSTONE, ESQ., F.S.A.

(*c*) *Abstracts and Copies of Inquisitions Post Mortem relating to the Parish of Halifax and neighbouring places*, compiled by the late J. R. WALBRAN, F.S.A.

VOLUMES IV. and V. will contain the remaining *Fines of the Tudor Period*, and the Council then hope to proceed with the *York Wills*, if they have sufficient encouragement in the way of further subscribers.

PREFACE.

THE first Volume of a New Series in the Publications of the Yorkshire Archæological and Topographical Association may seem to demand a few remarks by way of Preface.

The Association has been in existence for twenty years, and with the kind assistance of a large number of friends and supporters, has done, it is to be hoped, much good and useful work. The *Journal* which it has produced may compare favourably with periodicals of a similar kind, which are issued by other societies. The time, however, has arrived when the Yorkshire Archæological and Topographical Association considers that it may properly take upon itself a still heavier burden of literary responsibility. The publication of a Record Series, of which the present is the first Volume, is designed to be a contribution of materials toward the History and Antiquities of Yorkshire. The Council of the Association is of opinion that the time when the topography of Yorkshire can be taken in hand with anything like reasonable success has not yet arrived, but it also thinks that every exertion should be made, especially through the collection and publication of materials, to accelerate the accomplishment, in no very distant future, of that great undertaking. The Council therefore asks, not only the co-operation of new subscribers, but the assistance of tried and able scholars to make the new Record Series a work of permanent usefulness and interest.

INDEX TO THE YORKSHIRE WILLS

Proved in London during the time of the Commonwealth.

(1649—60.)

FOURTEEN months ago, when, in order to fill up the gap in the Calendars of the York Registry, I commenced an Index to the Yorkshire Wills, proved in London during the time of the Commonwealth, I little thought it would take me as many months to complete my task as I had expected to have been weeks. In the first place, it would seem that I had considerably under-estimated the labour; in the second, the very limited accommodation provided for searchers in the Literary Department of the Probate Office proved a serious obstacle; and in the third place, there are so many errors and omissions in the Calendars (notably in that for 1659) that, having, as I supposed, almost completed my work, I found it necessary to recommence, and to search the Registers page by page, an undertaking of some magnitude, as there are, for the period over which the Index extends, no less than ninety-five volumes of transcribed Wills, each volume containing on an average eight hundred pages, and, afterwards, I was compelled, in correcting, to go regularly through each page of the Probate Act Books. The Administration Act Books of intestate estates, for the twelve years, had to be dealt with in the same manner.

With regard to the Index, it has been my endeavour to give as much information as possible in the smallest possible space; and I have striven, with the aid of the Probate Act Books, to avoid omissions and errors, and to make my work complete. That there may be both errors and omissions, is more than probable, for the transcribers, through want of local knowledge, have failed, lamentably, in their rendering both of the names of persons and places. In some Wills, no residence is given, in others the county is wanting, and in such it is often impossible to decide whether the testator was a Yorkshireman or not. Many administrations of intestate estates had to be rejected, though probably belonging to the county, because the only information afforded is that the intestate

died either in the State's service, on board ship, or in parts beyond the seas. With regard to the spelling of the names of persons, places, and occupations, this of course was a difficulty, but as far as possible, I have adhered to that given in the transcripts, which, if correctly copied, would probably give the local spelling of the period, and, as a rule, I have chosen the signature at the foot of the Will, where there is one, as the mode in which the testator spelt his own name; but very frequently, even amongst the better classes, the testator only made his mark, being probably too ill to do more, as shown by the short time elapsing between the date of the Will and of the Probate.

With its probable errors and omissions, I feel that my work, as far as it goes, will be acceptable to those who have neither the leisure nor the opportunity of visiting Somerset House, and who have long been anxious for information likely to enable them to obtain some clue to a missing link in a pedigree, which cannot be furnished from the York Registry; and I have the satisfaction of knowing that my labours have brought to light many Wills and Administrations that had been overlooked in the preparation of the Calendars, and which were supposed not to exist.

I have now only to thank Mr. Challenor Smith, of the Literary Branch of the Probate Registry, for his kind and courteous assistance whenever I was in difficulties. It was at his suggestion that I added the column containing the dates of the Wills. He pointed out to me that as, in most instances, the date of the Will preceded the date of the Probate by only a few months, where other information was wanting, it would give some clue to the time of the testator's death.
