

## CONTENTS

<b>Zhirabok A. and Shumsky A.</b> An approach to the analysis of observability and controllability in nonlinear systems via linear methods .....	507
<b>Balachandran K. and Kokila J.</b> On the controllability of fractional dynamical systems .....	523
<b>Ostalczyk P.</b> Equivalent descriptions of a discrete-time fractional-order linear system and its stability domains .....	533
<b>Dos Santos Martins V., Rodrigues M. and Diagne M.</b> A multi-model approach to Saint-Venant equations: A stability study by LMIs .....	539
<b>Filasová A. and Krokavec D.</b> $H_\infty$ control of discrete-time linear systems constrained in state by equality constraints .....	551
<b>Hladík M.</b> Enclosures for the solution set of parametric interval linear systems .....	561
<b>Liu W.J.</b> Variable structure observer design for a class of uncertain systems with a time-varying delay .....	575
<b>Zaidi A., Ould Bouamama B. and Tagina M.</b> Bayesian reliability models of Weibull systems: State of the art .....	585
<b>Djebrani S., Benali A. and Abdessemed F.</b> Modelling and control of an omnidirectional mobile manipulator .....	601
<b>Soltani M., Chaari A. and Ben Hmida F.</b> A novel fuzzy c-regression model algorithm using a new error measure and particle swarm optimization .....	617
<b>Piegat A. and Landowski M.</b> Optimal estimator of hypothesis probability for data mining problems with small samples .....	629
<b>Jankowski N.</b> Graph-based generation of a meta-learning search space .....	647
<b>Gocławski J., Sekulska-Nalewajko J. and Kuźniak E.</b> Neural network segmentation of images from stained cucurbits leaves with colour symptoms of biotic and abiotic stresses .....	669
<b>Tan Y., Dong R., Chen H. and He H.</b> Neural network based identification of hysteresis in human meridian systems .....	685
<b>Fabińska A.</b> A survey of subpixel edge detection methods for images of heat-emitting metal specimens .....	695
<b>Biedrzycki R. and Arabas J.</b> KIS: An automated attribute induction method for classification of DNA sequences .....	711
<b>Péter T.</b> Modeling nonlinear road traffic networks for junction control .....	723
<b>Chmaj G., Walkowiak K., Tarnawski M. and Kucharzak M.</b> Heuristic algorithms for optimization of task allocation and result distribution in peer-to-peer computing systems .....	733
<b>Olwal T.O., Djouani K., Kogeda O.P. and van Wyk B.J.</b> Joint queue-perturbed and weakly coupled power control for wireless backbone networks .....	749
<b>Formanowicz P. and Tanaś K.</b> The Fan–Raspaud conjecture: A randomized algorithmic approach and application to the pair assignment problem in cubic networks .....	765
