

## CONTENTS

<b>N'Doye I., Darouach M., Voos H. and Zasadzinski M.</b> Design of unknown input fractional-order observers for fractional-order systems .....	491
<b>Kaczorek T.</b> Approximation of fractional positive stable continuous-time linear systems by fractional positive stable discrete-time systems .....	501
<b>Śliwiński P., Hasiewicz Z. and Wachel P.</b> A simple scheme for semi-recursive identification of Hammerstein system nonlinearity by Haar wavelets .....	507
<b>Mzyk G.</b> Nonparametric instrumental variables for identification of block-oriented systems .....	521
<b>Rauh A., Butt S.S. and Aschemann H.</b> Nonlinear state observers and extended Kalman filters for battery systems .....	539
<b>Boukroune B., Djemili I., Aitouche A. and Cocquempot V.</b> Robust nonlinear observer design for actuator fault detection in diesel engines .....	557
<b>Arminski K., Zubowicz T. and Brdys M.A.</b> A biochemical multi-species quality model of a drinking water distribution system for simulation and design .....	571
<b>Sklyar G.M. and Szkibił G.</b> Controlling a non-homogeneous Timoshenko beam with the aid of the torque ..	587
<b>Yarza A., Santibanez V. and Moreno-Valenzuela J.</b> An adaptive output feedback motion tracking controller for robot manipulators: Uniform global asymptotic stability and experimentation .....	599
<b>Nowak P. and Romaniuk M.</b> A fuzzy approach to option pricing in a Levy process setting .....	613
<b>Zajdel R.</b> Epoch-incremental reinforcement learning algorithms .....	623
<b>Florea C. and Florea L.</b> Parametric logarithmic type image processing for contrast based auto-focus in extreme lighting conditions .....	637
<b>Sas J. and Żołnierek A.</b> Pipelined language model construction for Polish speech recognition .....	649
<b>Bogdanowicz D. and Giaro K.</b> On a matching distance between rooted phylogenetic trees .....	669
<b>Goel N. and Singh K.</b> A modified convolution and product theorem for the linear canonical transform derived by representation transformation in quantum mechanics .....	685
