2002. 3. 38.

7.3.36. Thank you for your letter, which I have not yet been able to read, but I think you write something about not wishing me to do the Hungarian programme until you come. I should not. I have only one engagement for it as yet, which will be in October, probably. Just now I was busy, sending out the notices, hoping to get work for the autumn, my aunt, aged 87, who lived in the country, fell & broke her leg. She died a few days later. The shock & all the long journeys have prevented me from doing things that I wanted to do. She was the only person who cared whether I was dead or alive. C.K.T.
