

I live in Lucan all my life. Lucan is a very nice and friendly place to live. Sometimes there dose be robbed cars but thats only sometimes its not always. One thing I don't like about Lucan is there's not enough place's [places] to play because in Balgaddy all we have is are gardens and a green were we can play but there's burnt [burned] trees and glass everywhere you go but that doesn't change what I think of Lucan. Some of are neighbours are realy nice and some aren't as nice. Schools in Lucan are good all teachers are very nice and can be a bit striked [strict] sometimes but they are only do that to help you learn. There is all different schools primary, Secondry and some secondary schools are mixed that means its a girls and boys school and some aren't some are just girls school and some are boys schools but they are all good schools. None of my aunts and uncle's live near me, needer [neither] dose [does] my two nannys [grandmothers] or my granddad. Sometimes people think Lucan is a bad place but its not realy [really] its realy [really] friendly. When i am older I want to stay in Balgaddy because I have lived there all my life and I never want to move because I like where I am and thats why I like living in Lucan.
