

My name is [name]. I'm 12 year old and live in a place called [name of estate]. It's a quite nice place except for the construction going on. We go shopping in the village, superquinn and Liffey Valley. I've been living in Lucan 3 / 4 year and I think it's a very nice place to live. There are a lot of people we know who have moved to Lucan. The school I go to is small because it is temporary. We are getting a 2 story building next year but I'll be in secondary school some of the my friend are going to that school and some are all ready there. Lucan is far better that were I lived before, but the builders have got to stop digging up the whole of Dublin.
