Ioannis Alberti Fabricii Bibliotheca graeca, opus praeclarum, quod notum est, quantum inter reliquos huius generis libros emineat, edi est coepta Hamburgi anno MIOCCV, absoluta anno MIOCCXXVIII. XIV. Tom., quaternis. Huius libri praestantia tantam etiam apud exteros gloriam assequuta est, ut bibliopola, divenditis editionis tertiae exemplis, novae editioni non defuturum esse speraret posteritatis favorem. In repetendo libro ut quae et emendanda essent et addenda accurate praestarentur operam tribuit G. C. Harlesius, qui suam huius literarum generis notitiam egregiis speciminibus comprobaverat. Recognitionem Harlesii institutam esse ad haud infelicem Fabricii aemulationem laus eiusdem et usus frequentia declarant. — Quam Harlesius eiusque in hoc opere socii rationem sequuti sint et quae iis praesidia contigerint, additamenta eorum a Fabricii verbis fere segregata et ordinis argumentorum immutatio tam manifeste indicat adeoque fama est et usu celebratum, ut amplior huius rei enarratio hoc loco haud temere videatur omitti. Plus tamen Fabricio fortuna favit in eo, quod ei id est datum, ut ingens suum et humanis viribus prope maius opus absolveret et in gloriae suae societatem neminem admitteret. Editio enim Harlesii, cui sumus indicem addituri, XI tantum Fabriciani operis Volumina repetivit ideoque non complectitur ea, quae duae postremae partes Bibliothecae graecae Fabricii continent. Imperfectum hoc opus redemit Carolus Cnoblochius, bibliopola Lipsiensis, industria et liberalitate insignis. Quis ignorat enim editiones Medicorum veterum Graecorum et Corporis, quod dicunt, Iuris, quarum par est amplitudini nitor? Mors praematura intercessit, quominus Cnoblochius laudem, quam adornandis praestantissimis operibus ceperat, editionis Harlesianae absolute augeret. Additurus enim erat duo postrema Fabricii volumina et priorum, quoad id temporis nostri ratio postulare videretur, supplementa et emendationem. Tam insignis viri heredes sentiunt quidem, parem atque patri defuncto se debere reverentiam praestare magnis illis operibus, in quibus quasi vitam suam positam esse volebat, idque inprimis enixe operam dare, ut nihil in iis imperfecti relinquatur: attamen a Bibliotheca graeca perficienda eos hucusque et ipsius magnitudo et paucitas eorum prohibuit, qui operi absolvendo pares sint, quod I. A. Fabricius condidit, Harlesius recognovit. Certe tamen quae nunc prospere non cesserunt, ea desinet unquam infestare fortunae iniquitas. —

Quod attinet ad ea, quae desunt in editione secunda, eorum haec est ratio, ut a paucis desiderentur. Videtur nobis esse commodum, addere indicem argumentorum quae a Fabricio illustrata sunt in postremis iis libris, quos non contigit Harlesio, ut recognosceret. Ex hac nostra enarratione patebit, nihil deesse in editione Harlesii quod sive frequens usus doctorum hominum, sive illustratio praestantiorum veterum scriptorum requirat. Volumen XII. et XIII. Fabricii (Volumen enim XIV. complet Index) haec continent: Editionem Conciliorum Labbei et Harduini; — Catalogum Pontific. roman. ad ductum Dan. Papebrochii, alphabet. et chronolog.; — Epistolas Roman. Pontific. et quae ad eos scriptae sunt; — Demetrii Procopii Maced. Moschopolitae *ἑναρεθμῆσιν τῶν κατὰ τὰ παρελθόντα αἰῶνα λογίων Γραικῶν καὶ περὶ τινῶν ἐν τῷ νῦν αἰῶνι ἀνθούτων*; — Indicem in Demetrii Procopii Notitiam recentiorum eruditorum Graecorum; — Indicem Geograph. Episcopatum orbis christiani, tum aliorum, tum quorum in Conciliis mentio; — Mantissam de recentibus Histor. Eccles. scriptoribus; — de Iureconsultis et iuris graeco-romani legibus atque scriptoribus; de Paulo Aegineta, Alexandro Tralliano et aliis graecis Medicis editis; — de Medicis Anecdota; — Elenchum medicorum veterum; — Ioannis Stephani Theologia Hippocratis; — Paralipomena ad superiores libros. —

Ex his sponte intelligitur Medicorum tantum et Iurisconsultorum veterum inferioris ordinis illustrationem in nostra editione non reperiri. Caetera ab Harlesio aut in prioribus voluminibus posita aut consulto omissa sunt. Res quum sic se haberet, diu animi pendebamus, num quid esset praesidii, quo commodior redderetur editio Harlesii; tandem indicem Volum. XII., quae ista complectitur, conscribi iussimus. In quo apparando maxima diligentia adhibita est; aemulati sumus Fabricium, cuius index, etsi errores et menda ab eo omnino non absint, insignem ipsius Bibliothecae diligentiam strenue imitatur. Sedulo curavimus, ne quid omitteretur et notarum Harlesii argumenta praecipua in Indice collegimus. Nominum in postremis partibus Bibliothecae Fabricii eo maiore est copia, quo pauciora poterant referri de istis inferioris ordinis hominibus, quorum fata et scripta in fine operis sui Fabricius illustravit. Contigit denique tythetis (nostra enim aetate maior eorum est in compingendis typis dexteritas), ut in paucis plagulis commodum satis et perfectum indicem typis exscriberent.
