PREFACE.

THE copies of Subsidies here presented to the reader are of considerable interest, as they enable him to estimate the population and property value of the parishes to which they relate at a period when no other sources of information are available. They are subsequent to the Hearth Tax Rolls, which are the latest returns we have, and precede by a few years the date at which County Poll Books usually commence.

These Subsidies were taken pursuant to two Acts of Parliament and "an additional Act," entitled respectively, "An Act for a Grant to their Majestys of an Ayde of Twelve pence in the pound for one yeare for the necessary Defence of Their Realmes;" [1 William & Mary, cap. 20, 1688.] "An Act for a Grant to their Majestyes of an Ayd of Two Shillings in the Pound for one yeare for the reduceing Ireland and for the vigorous Prosecution of the Warr against France both by sea and land;" [1 William & Mary, Sess. 2, cap. 1, 1688.] and "An Act for a Grant to Their Majestyes of an additionall Ayd of Twelve Pence in the Pound for one Yeare." [1 William & Mary, Sess. 2, cap. 5, 1688.] The Assessors were to deliver one copy of the assessment to the Commissioners, any two or more of whom were to sign and seal duplicates or copies of the said assessment, and one copy so signed and sealed was to be delivered to the Sub-Collectors, the Head-Collectors, and the Receiver-General; also a true copy or extract of the whole sums was to be transmitted to the Court of Exchequer, duly signed and sealed by two or more of the Commissioners, but without naming the persons in such their Certificate.

I am not aware that similar returns for other counties exist either in the Public Record Office or in the custody of any county authorities. That they were made in other counties in an exactly similar form is evidenced by an assessment of the township of Cloughton, co. Lanc., printed in the *Reliquary*, vol. xi., p. 79. I append a copy of a similar Subsidy made in 1693, for the parish of Sarnesfield, co. Hereford:

An Asseasment made Aprill the fourth 1693 in the parish of Sarnesfield and Hundred of Woolphy, for A taxe graunted to theyr Maiesties by Act of Parliament After the rate of foure shillings a pound for the carying on A vigorous war against France.

These returns include the greater part of the County of Nottingham, and were purchased some years since by my father, GEORGE W. MARSHALL, in whose possession they now are.

I have printed and indexed them in the hope that they will be of interest to Nottinghamshire Topographers and Genealogists, and possibly induce persons possessed of similar documents to print them also. I need only add that the following pages are *verbatim et literatim* copies of the originals.

¹ This column was originally identical with the next one, but the figures have had new ones written over them as here given.

² This column is £.

³ These amounts were evidently an afterthought, and are written over the ciphers which represented the shillings and pence of the column before; where there are two ciphers together it originally was "10."

Another, same Parish.
