 [*The Lord President (E. Crewe)*], } Third Reading.

Town Tenants (Ireland) Bill [*The Lord Denman*], } Second Reading.

*Monday the 10th of December.*

The Lord Wemyss (*E. Wemyss*) — To call attention to the altering of the terms of service in the Militia by rendering them liable to be sent abroad at the will of the Government of the day, a change hurtful alike to the Militia and the Nation, as it would lessen the chances of recruiting a force, ever from 20,000 to 30,000 short of its established strength, though containing a very large number of boys under 20 years of age, while the exercise of the existing power of compulsory Militia Home Service would be rendered impossible.

*Monday the 17th of December.*

The Lord Burghclere — To call attention to the Standing Orders of the House relating to matters of order in debate; and to move a resolution.

*(No day named.)*

The Lord Muskerry — To call attention to the desirability of candidates for Board of Trade certificates as master or mate being required to show knowledge of ambulance work and first aid, and of efficiency in hand-flag signalling for day use, and Morse code lamp-signalling for use at night on board British merchant vessels; and to ask what, if any, action His Majesty's Government propose to take in this direction.

The Lord Wemyss (*E. Wemyss*) — That this House, having last Session unanimously resolved that our Home land defences should at all times be such that no nation would ever attempt in any form a hostile landing on our shores, disapproves of the

Government's new army scheme as it fails to give effect to the said resolution, entrusting as it does our Home land defence mainly to a force which the Norfolk Commission has declared to be inefficient.

The Viscount Hutchinson (*E. Donoughmore*) — To call attention to the continued discharges now being made from the Royal Arsenal at Woolwich; and to move for a return showing the number of such discharges week by week since the commencement of the current financial year.

The Lord Barnard — To ask the President of the Board of Agriculture and Fisheries whether it is proposed to hold an inquiry into the system of agricultural education, and, if so, when and what will be the scope of such inquiry.

The Earl of Onslow — To ask whether His Majesty's Government have been invited by any of the other Governments who are taking part in the International Council for the Investigation of the North Sea to continue their participation in that Council after the summer of next year, and, if so, what answer has been returned.

The Lord Ribblesdale — To call attention to an answer given by the Prime Minister to the effect that the Government have no present intention of giving effect to the recommendations of the Royal Commission on London Traffic; and to ask His Majesty's Government whether, as is alleged, the attitude of the London County Council on this matter is a factor in the case.

The Lord Muskerry — To call attention to the methods adopted by the Board of Trade in the prosecution of the master of the SS. Snowdon on a criminal charge in connection with the navigation of his ship, in which case before commencing any proceedings the master was asked to attend the solicitors to the Board of Trade to make a statement to them, on which statement the prosecution was subsequently founded; and also to call attention to the fact that previous to the issue of the summons the Board of Trade's solicitors were in possession of statements from independent witnesses entirely in favour of the accused, but refused to call those witnesses on the hearing, a course which might have led to a grave mis-carriage of justice; and to move to resolve that, in the opinion of this House, in the interests of justice in all future prosecutions, before taking any statement from a person against whom it is contemplated to institute criminal proceedings, it be an instruction to persons acting on behalf of the Board of Trade to inform the person from whom they desire to obtain the statement, that he should be advised by his own solicitor as to the desirability of making any statement, and that in all cases of criminal prosecutions of this nature no evidence obtained by the Board of Trade in favour of the accused be withheld from the tribunal investigating the charge.

After clause 9, *moved* to insert the following clause :

Appeals to  
Commission  
as respects  
extended  
facilities.  
[See clause 5  
(1)].

—(1) Where the local education authority fail to accept an arrangement offered to them by the owners of the schoolhouse of an existing voluntary school as regards the use of the schoolhouse, and the school is one in respect of which extended facilities are desired, the owners of the schoolhouse may appeal to the Commission appointed under this Act, and that Commission may, if they are satisfied that the conditions as to the fulfilment of which a local education authority must be satisfied before they can grant extended facilities in a school under this Act are fulfilled in the case of the school, and that the schoolhouse is structurally suitable, and, if they otherwise think fit after considering the circumstances of the case, and the wishes of the parents of children attending the school, as to the continuance of the school with extended facilities, by order require the local education authority to continue the school as a public elementary school provided by them, on such terms and conditions as respects the use of the schoolhouse as may be provided by the order, and to afford the extended facilities desired, but if under any special circumstances of the case the Commission think it expedient, they may, after consulting the Board of Education, instead of making such an order, make an order allowing the school to continue as a State-aided school.

—(*The Lord President (E. Crewe)*); an amendment *moved* thereto to leave out (“extended”) in line 4 —(*The Duke of Devonshire*); objected to: On question whether the word proposed to be left out shall stand part of the amendment?

Town Tenants (Ireland) Bill [The }  
 Lord Denman], } Second Reading.

*Monday the 10th of December.*

The Lord Wemyss (*E. Wemyss*) — To call attention to the altering of the terms of service in the Militia by rendering them liable to be sent abroad at the will of the Government of the day, a change hurtful alike to the Militia and the Nation, as it would lessen the chances of recruiting a force, ever from 20,000 to 30,000 short of its established strength, though containing a very large number of boys under 20 years of age, while the exercise of the existing power of compulsory Militia Home Service would be rendered impossible.

*Tuesday the 11th of December.*

Merchant Shipping Acts Amendment }  
 (No. 2.) Bill [The Lord Granard }  
 (E. Granard)], } Committee.

*Monday the 17th of December.*

The Lord Burghclere — To call attention to the Standing Orders of the House relating to matters of order in debate; and to move a resolution.

*(No day named.)*

The Lord Muskerry — To call attention to the desirability of candidates for Board of Trade certificates as master or mate being required to show knowledge of ambulance work and first aid, and of efficiency in hand-flag signalling for day use, and Morse code lamp-signalling for use at night on board British merchant vessels; and to ask what, if any, action His Majesty's Government propose to take in this direction.

The Lord Wemyss (*E. Wemyss*) — That this House, having last Session unanimously resolved that our Home land defences should at all times be such that no nation would ever attempt in any form a hostile landing on our shores, disapproves of the Government's new army scheme as it fails to give effect to the said resolution, entrusting as it does our Home land defence mainly to a force which the Norfolk Commission has declared to be inefficient.

(*No day named*)— *continued.*

The Viscount Hutchinson (*E. Donoughmore*)— To call attention to the continued discharges now being made from the Royal Arsenal at Woolwich; and to move for a return showing the number of such discharges week by week since the commencement of the current financial year.

The Lord Barnard— To ask the President of the Board of Agriculture and Fisheries whether it is proposed to hold an inquiry into the system of agricultural education, and, if so, when and what will be the scope of such inquiry.

The Earl of Onslow— To ask whether His Majesty's Government have been invited by any of the other Governments who are taking part in the International Council for the Investigation of the North Sea to continue their participation in that Council after the summer of next year, and, if so, what answer has been returned.

The Lord Ribblesdale— To call attention to an answer given by the Prime Minister to the effect that the Government have no present intention of giving effect to the recommendations of the Royal Commission on London Traffic; and to ask His Majesty's Government whether, as is alleged, the attitude of the London County Council on this matter is a factor in the case.

The Lord Muskerry— To call attention to the methods adopted by the Board of Trade in the prosecution of the master of the SS. Snowdon on a criminal charge in connection with the navigation of his ship, in which case before commencing any proceedings the master was asked to attend the solicitors to the Board of Trade to make a statement to them, on which statement the prosecution was subsequently founded; and also to call attention to the fact that previous to the issue of the summons the Board of Trade's solicitors were in possession of statements from independent witnesses entirely in favour of the accused, but refused to call those witnesses on the hearing, a course which might have led to a grave mis-carriage of justice; and to move to resolve that, in the opinion of this House, in the interests of justice in all future prosecutions, before taking any statement from a person against whom it is contemplated to institute criminal proceedings, it be an instruction to persons acting on behalf of the Board of Trade to inform the person from whom they desire to obtain the statement, that he should be advised by his own solicitor as to the desirability of making any statement, and that in all cases of criminal prosecutions of this nature no evidence obtained by the Board of Trade in favour of the accused be withheld from the tribunal investigating the charge.

NOTICES AND ORDER OF THE DAY

*for Monday the 10th of December*

**At half-past Four o'clock.**

**The Lord Wemyss** (*E. Wemyss*) — To call attention to the altering of the terms of service in the Militia by rendering them liable to be sent abroad at the will of the Government of the day, a change hurtful alike to the Militia and the Nation, as it would lessen the chances of recruiting a force, ever from 20,000 to 30,000 short of its established strength, though containing a very large number of boys under 20 years of age, while the exercise of the existing power of compulsory Militia Home Service would be rendered impossible.

**Plural Voting Bill** [THE EARL } **Second Reading.**  
BEAUCHAMP],

**Plural Voting Bill** — On the motion for the Second Reading of the Bill, THE VISCOUNT ST. ALDWYN to move, That this House, while willing to consider a complete scheme for reforming the Parliamentary franchise and securing the fair representation of the people, declines to take into consideration a measure which, while professing to remove an anomaly in our electoral system, imposes penalties on persons registered as voters for exercising the franchise with which they are entrusted by law, indirectly destroys ancient and important constituencies, and does nothing to remove the most glaring inequalities in the present distribution of electoral power.

**The Duke of Marlborough** — To ask the Secretary of State for the Colonies when he will be prepared to lay before the House the Letters Patent of the Transvaal Constitution; and to make a statement on behalf of His Majesty's Government with regard to the Constitutional changes in the Orange River Colony.

 BILLS APPOINTED AND NOTICES.
 

---

*Wednesday the 12th of December.*

The Lord Muskerry — To call attention to the methods adopted by the Board of Trade in the prosecution of the master of the SS. Snowdon on a criminal charge in connection with the navigation of his ship, in which case before commencing any proceedings the master was asked to attend the solicitors to the Board of Trade to make a statement to them, on which statement the prosecution was subsequently founded; and also to call attention to the fact that previous to the issue of the summons the Board of Trade's solicitors were in possession of statements from independent witnesses entirely in favour of the accused, but refused to call those witnesses on the hearing, a course which might have led to a grave mis-carriage of justice; and to move to resolve that, in the opinion of this House, in the interests of justice in all future prosecutions, before taking any statement from a person against whom it is contemplated to institute criminal proceedings, it be an instruction to persons acting on behalf of the Board of Trade to inform the person from whom they desire to obtain the statement, that he should be advised by his own solicitor as to the desirability of making any statement, and that in all cases of criminal prosecutions of this nature no evidence obtained by the Board of Trade in favour of the accused be withheld from the tribunal investigating the charge.

The Viscount Hutchinson (*E. Donoughmore*) — To call attention to the delay in circulating the information upon the subject of Army Organisation, ordered to be furnished by Resolution of the House on the 24th of July, and laid on the table "in dummy" on the 1st of August last, and to ask the Under Secretary of State for War if he can state when this information will be printed and circulated.

Trade Disputes Bill [*The Lord Chancellor*], } Committee.

*Thursday the 13th of December.*

Land Tenure Bill [*The Earl Carrington*], } Committee.

*Monday the 17th of December.*

The Lord Burghclere — To call attention to the Standing Orders of the House which relate to matters of Order in Debate; and to move to resolve that a Select Committee be appointed to inquire into the Standing Orders of the House which relate to Order in Debate, and to report what alterations, if any, are desirable in those Standing Orders.

BILLS APPOINTED AND NOTICES — *continued.*

---

*Wednesday the 19th of December.*

The Lord Farrer — To ask the Lord President of the Council whether the Government are aware of the great number of van-dwellers and other nomads in the Home Counties whose children receive no regular education ; and whether they would be prepared to afford facilities for legislation, either by extending the provisions of the Canal Boats Acts to such nomads or upon the lines of the " Temporary Dwellings Bill " of 1887.

*(No day named.)*

The Lord Muskerry — To call attention to the desirability of candidates for Board of Trade certificates as master or mate being required to show knowledge of ambulance work and first aid, and of efficiency in hand-flag signalling for day use, and Morse code lamp-signalling for use at night on board British merchant vessels ; and to ask what, if any, action His Majesty's Government propose to take in this direction.

The Lord Barnard — To ask the President of the Board of Agriculture and Fisheries whether it is proposed to hold an inquiry into the system of agricultural education, and, if so, when and what will be the scope of such inquiry.

The Earl of Onslow — To ask whether His Majesty's Government have been invited by any of the other Governments who are taking part in the International Council for the Investigation of the North Sea to continue their participation in that Council after the summer of next year, and, if so, what answer has been returned.

The Lord Ribblesdale — To call attention to an answer given by the Prime Minister to the effect that the Government have no present intention of giving effect to the recommendations of the Royal Commission on London Traffic ; and to ask His Majesty's Government whether, as is alleged, the attitude of the London County Council on this matter is a factor in the case.

## **NOTICE.**

---

The attention of the Chairman of Committees has been drawn to the fact that some Peers who desire to call attention to Private Bills wish that a longer notice should be given of their Second Reading than on the morning of the day when it is proposed to take place.

He desires to point out that the daily Minutes of the House give the names of all Bills in progress and the stage at which they have arrived, and that any Notices relating to such Bills may be handed in at any time after the First Reading, and will be put down for the stage to which they relate.

The Chairman of Committees will also be glad, on hearing from any Peer, to give him an early intimation of the date on which the next stage of any Bill in which he may be interested is likely to be taken.

**HIS MAJESTY'S**  
**MOST GRACIOUS**  
**SPEECH,**

DELIVERED BY

**THE LORDS COMMISSIONERS,**

TO BOTH HOUSES OF

**PARLIAMENT**

*On Friday, December 21, 1906.*

LONDON:  
PRINTED BY EYRE AND SPOTTISWOODE,  
PRINTERS TO THE KING'S MOST EXCELLENT MAJESTY.

1906.

## HIS MAJESTY'S MOST GRACIOUS SPEECH.

*My Lords, and Gentlemen,*

THE marriage of my niece to the King of Spain took place last June in Madrid, and the ceremony was attended by the Prince and Princess of Wales. Happily, their Majesties the King and Queen of Spain were mercifully preserved from being injured by the outrage committed against them.

The recent visit of the King of Norway with the Queen, my daughter, has given me sincere pleasure, and cannot fail to promote friendly relations between the two countries.

My relations with foreign Powers continue to be friendly.

The Conference which met at Algeciras, on the invitation of the Sultan, to consider the introduction of reforms into Morocco, concluded its labours by the signature of an International Act which should be conducive to an improvement of the situation in Morocco.

There has been a distinct improvement in the condition of affairs in Crete, and the Powers are still giving close attention to the reforms which are being gradually introduced into the administration of the Macedonian vilayets.

My Government have concluded Agreements with the French and Italian Governments for the maintenance of the *status quo* in the dominions of the Emperor Menelek in Abyssinia, and for the regulation of the traffic in arms on the Somali Coast.

In conformity with the Declaration of the 8th April 1904, concerning the New Hebrides, a Convention with France has been signed for the purpose of putting an end to the difficulties arising from the absence of jurisdiction over the natives, and of settling land disputes in those islands.

My Government have concluded satisfactory arrangements with the German Government in regard to our respective frontiers in the neighbourhood of Lake Tchad and Lake Victoria Nyanza, and with the Government of the French Republic respecting the Anglo-French boundary between Lake Tchad and the Niger.

The boundaries between the Anglo-Egyptian Soudan and the Congo State have been satisfactorily settled by an Agreement which has been signed with the Sovereign of the Congo State, and the eastern administrative boundary of Egypt has been delimited by a Joint Commission with the Government of Turkey.

A Conference, in which my Plenipotentiaries took part, was held at Brussels in October to revise the Regulations instituted under the Brussels Act for the restriction of the liquor traffic in Africa, and a Convention was signed, which will shortly be laid before you.

The visit of friendship which the Amir of Afghanistan will shortly pay to the Governor-General of India is a gratifying indication of the amicable relations that exist between the Amir and my Government.

In pursuance of the promise given in my Speech at the opening of Parliament, the arrangements for the establishment of Responsible Government in the Transvaal have now been completed, and I have caused Letters Patent to issue under the Great Seal. The Instruments providing for the grant of a similar Constitution to the Orange River Colony are in preparation.

I trust that during the coming year the new form of Government will come into full operation, and will exert a powerful influence not only in securing the peace and prosperity of both Colonies, but in contributing to the unity and strength of my possessions in South Africa.

*Gentlemen of the House of Commons,*

I thank you for the liberality with which you have made provision for the services for the year.

*My Lords, and Gentlemen,*

A measure for further extending and facilitating the provision of cottages and allotments of land by the Rural District Councils of Ireland for the use of labourers, and for conferring other benefits on this deserving class of my subjects, has passed into law. I am happy to say that the country continues tranquil, and that the general improvement in the state of the peasantry makes the failure of the potato crop, which has in some districts been serious, a less grave misfortune than it would have been in former times.

A Bill relating to the Tenancy of certain classes of houses in Ireland, which has also been passed, will place the Law on a more equitable footing and remove a long-standing sense of grievance.

Important measures have received my sanction for the amendment of the existing Merchant Shipping Laws, having in view alike the well-being of the seaman and the interests of the shipowners, and for taking a periodical census of the industrial production of the country.

A measure has been passed amending the Law in regard to Trade Disputes, which will, I hope, remove all legitimate cause of grievance, and I have also given my assent to an Act to amend and consolidate the Law of Workmen's Compensation, extending the benefits of the Law to over six million persons not included under the provisions of preceding Acts.

I have assented to an Act for the amendment of the Law relating to Agricultural Holdings and to other measures affecting agriculture. I trust that the close attention which has been giving to these questions will be of material benefit to that important industry.

I hope that the Public Trustee Act will afford, especially to the poorer classes of the population, valuable facilities for the safe and inexpensive management and distribution of Trust funds.

Further measures have been passed for placing the control of the National Galleries in Scotland on a better footing, for abolishing the property qualification previously required of County Justices, for more effectually dealing with the evils incident to the prevalence of street betting, and for making provision for the feeding of school children.

I regret that, notwithstanding the protracted consideration which you have given to the improvement of primary and secondary education, no settlement of the difficulties which surround this question has been arrived at.

I recognise the zeal which you have devoted to your arduous labours, and I pray that their results may have the blessing of Almighty God.

**Then a Commission for proroguing the Parliament  
was read.**

**After which the Lord Chancellor said:**

MY LORDS, AND GENTLEMEN,

*BY virtue of His Majesty's Commission, under the Great Seal, to us and other Lords directed, and now read, we do, in His Majesty's Name and in obedience to His Commands, prorogue this Parliament to Tuesday the Twelfth day of February next, to be then here holden; and this Parliament is accordingly prorogued to Tuesday the Twelfth day of February next.*
