Dear Monsieur Boga,

7147/1

You will see from the address  
that I am home once more.

And has the "proof" of Le

Quang's Recollections of

How very carefully put

in all the descriptive signs of

to read they can easily be

The 'i' & the 'x' as I have  
said they are to do so.

Think it is much more

finished. Many thanks

for the "Slavonic Review"; your  
contribution is most interesting.

'Rusa' is ready but I am  
sure you will not want the

NSS. in Roumania? How  
happy you must be to be there  
again.

With my kindest regards &  
my love to Madam Boga.

Love

Yours very lovingly  
Lucy Boga
